

USON PLAST A/S

Care for people – and environment...

Safety containers and medical supplies for the healthcare sector

7 L ECO Sharps Container – made from 100% Recycled Material

The “ECO LINE” series from USON PLAST comprises sustainable sharps containers for use in hospitals, clinics, and other healthcare institutions. Made from 100% recycled material, the series is developed to reduce CO₂ impact and the consumption of fossil-based plastics.

USON sharps containers comply with UN 3291 regarding packaging approved for transportation of dangerous goods (waste/disposal).

- Made from recycled, impact-resistant PP (polypropylene).
- Produced by use of 100% wind and solar energy - reducing the CO₂ impact from production to ZERO.
- Produced in Denmark according to ISO 9001 standards.
- Standard colour: Yellow – but also available in black.
- Private labeling available for large orders.
- Lid has two functions: temporary and permanent closure.
- Container and lid fit tightly together.

USON lid with syringe detachment

Lid with mandatory holes for needle detachment. The lid offers both temporary and permanent closure. For permanent closure, the flaps must be bent downward before being pressed into the holes.

ARTICLE NO.

4770

MATERIAL

Polypropylene (PP), 100% recycled material. 

Using 100% recycled material reduces the CO₂ footprint by at least 50% compared to virgin material (*Klima-kompasset.dk*)

DIMENSIONS

Diameter (top):	21 cm
Height:	26 cm

PACKAGING

Per pallet: 405 pcs.

ACCESSORIES

Wall and trolley hanger

Wall hanger 5500

Trolley hanger 5500 + 6000
